

FENIX
LIGHTING FOR EXTREMES

LD45R

DIGITAL
FOCUSING
FLASHLIGHT

2800 LUMENS MAXIMUM
OUTPUT

480 METERS MAX BEAM
DISTANCE

The image features a Fenix LD45R flashlight, a high-performance digital focusing flashlight. It has a black, textured body with a large, clear lens at the front. The flashlight is shown vertically, with the brand name 'Fenix' and model 'LD45R' visible on the body. The background is dark, making the flashlight stand out. The text 'FENIX LIGHTING FOR EXTREMES' is at the top left, and the model name 'LD45R' is prominently displayed below it. The words 'DIGITAL FOCUSING FLASHLIGHT' are written in a smaller font. At the bottom, two white boxes contain icons and text: a sun-like icon for '2800 LUMENS MAXIMUM OUTPUT' and a beam icon for '480 METERS MAX BEAM DISTANCE'.
